Dear Patient:

We are enclosing our formal HIPAA Authorization for Release of Patient Records, which you must complete before we release your Personal Health Information from this office in accordance with Connecticut law. Please read the entire form carefully.

Because there is a charge of \$.65 per page for copying records, plus the postage incurred, we want to be sure we are providing only those documents that are necessary. Typically, charts for established patients can contain the equivalent of 40 or more pages, resulting in charges of \$26.00 or more.

Please indicate on the enclosed form whether you need only immunization records, recent visit notes, lab results, specialists' reports, or every single document contained in the chart.

Patients 18 years of age or older must complete the form themselves, or provide written consent to have another adult request and receive the records for them.

If you have questions regarding the form or the process for requesting records please feel free to call me at 203-865-3737.

Thank you

Samantha Neal
